

Our
Advertising
Packages Help
You Advertise
To Your Market

Future Environment Designs, Inc. has been providing asbestos, mold, safety and health training classes to the Long Island (Nassau and Suffolk Counties), and Plattsburgh (Clinton County) areas since 1990. Our mailing list consists of over 4,700 people who have taken classes at our Training Center or who have taken advantage of our **Training At Your Convenience** program (This program involves Future Environment Designs traveling to our client's location for training). Our website is accessed by thousands of people scheduling courses and accessing information from our newsletter and blog postings.

We are now offering advertising packages that can work with your advertising and marketing campaigns to specifically access individuals that purchase asbestos, safety and health supplies and equipment. Each package has been set-

up to work with various budgets. We also offer one issue, monthly, or quarterly packages that may meet short term needs.

- **The Chrysotile Sponsorship Level (\$250 per year)**: Includes business card size ad in our course manual (over 1000 printed/year), and handing out marketing materials in all our classes.
- **The Amosite Sponsorship Level (\$500 per year)**: Includes quarter-page (1/4) ad in our course manual, and handing out marketing materials at all our classes.
- **The Crocidolite Sponsorship Level (\$750 per year)**: Includes a full page ad in our course manual, writing a featured article in our blog, and handing out marketing materials at all our classes.

So give **Future Environment Designs** a call or fill out the order form on the other side and fax it to us with your form of payment and we will contact you for the arrangements for setting up the links and providing us with materials for the advertising package you selected.
