

Future Environment Designs Sponsors Singing in the Sanctuary for the Theodore Roosevelt Sanctuary & Audubon Center

Future Environment Designs announced today that they are a key sponsor of "Singing in the Sanctuary" being held Saturday, July 26, 2008 from 1:00 p.m. to 4:00 p.m. at the Theodore Roosevelt Sanctuary & Audubon Center at 134 Cove Road, Oyster Bay, New York. "Singing in the Sanctuary" will connect people to nature and conservation through the songs and puppetry of locally-grown and internationally known singer/songwriter Janice Buckner.

Syosset, New York ([PRWeb](#)) July 14, 2008 -- Future [Environment](#) Designs announced today that they are a key sponsor of "Singing in the Sanctuary" being held Saturday, July 26, 2008 from 1:00 p.m. to 4:00 p.m. at the Theodore Roosevelt Sanctuary & Audubon Center at 134 Cove Road, Oyster Bay, New York.

"Singing in the Sanctuary" will connect people to nature through the songs and puppetry of locally-grown and internationally known singer/songwriter Janice Buckner. Ms. Buckner will perform from 2:00-3:00 p.m. and will showcase kid-friendly environmentally themed songs and puppetry. Combining music and puppetry, Ms. Bruckner educates and entertains with children's lyrics that carry a tune and convey a conservation message.

Throughout the day from 1:00-4:00 p.m., Sanctuary staff and volunteers will display live-animals where you can get up close and personal with some of the resident non-releasable wildlife. Sanctuary staff and volunteers will also have many crafts, [conservation](#) activities, displays, kid's activities, raffles through the day.

Future Environment Designs (www.futureenv.com), is a 20-year-old indoor air quality, industrial hygiene, and construction safety training and consulting firm based in Syosset, NY. Future Environment Designs works with clients to solve indoor air quality issues (mold, asbestos, lead, and heating, ventilation, and air conditioning problems) and train workers on construction safety issues (asbestos, lead, respiratory protection, OSHA 10 hour construction safety, etc.). Angelo Garcia, III Principal - Industrial Hygienist for Future Environment Designs, read his blog at <http://futureenv.blogspot.com>, says it is part of our mission to support events like "Singing in the Sanctuary" and organizations such as the Theodore Roosevelt Sanctuary & Audubon Center to help families become more familiar with the natural world around them.

The Sanctuary was established in 1923 in memory of the Conservation President, Theodore Roosevelt. Considered the oldest songbird sanctuary in the nation, the Sanctuary is dedicated to the conservation of 15-acres of upland forest and open meadow habitat maintained for songbird conservation and environmental education.

The goal of the Theodore Roosevelt Sanctuary & Audubon Center is to provide high-quality effective [environmental](#) education programs to all audiences. Using hands-on, experiential, and inquiry-based methods, program participants will develop a deeper understanding and consideration for our natural world, gain a sense of stewardship for their local environment, and become informed decision-makers on how conservation affects the future. Highly qualified educators conduct nature programs at the Sanctuary or at a site of your choice. The Sanctuary uses live non-releasable wildlife; natural areas, artifacts and an exciting assortment of activities to help people discover the natural world.
